

Critical Illness

Today, many people survive a critical illness that may have been fatal 30 years ago. Many Canadians will develop a critical illness, survive and live longer and thus have to deal with the reality, including the financial effects of survival.

Critical Illness (CI) Insurance is a supplemental product which can lift the burden of the financial and emotional stress associated with a critical illness so that that the victim and his/her family can continue to lead their lives in as normal a way as possible. It is a product for the living, providing living benefits, as opposed to typical life or accident insurance plans, which provide benefits when an Insured Person dies.
